

## A/C Recovery & recharge station for hybrid cars CT4106

Automatic device for filling of air conditioning systems for hybrid vehicles for which the manufacturer prescribes the use of R134a.

Suit for: Hybrid car  
Refrigerant: R134a  
Mode: Fully-automatic  
Screen: LCD

Specifications:

Recovery speed: 180~350 G/min  
Recharge speed: 800~1500 G/min  
Vacuum speed: 60 L/min  
Refrigerant tank available capacity: 14 L  
Electronic scale range: 0~35 KG  
Oil bottle capacity: 300 ML  
Operating temperature: 5~50 °C  
Voltage: AC220v/50Hz/1PH  
Max. working pressure: 17.5 bar  
Low pressure protection: Less than 1 bar  
Electronic scale precision: ±10 g

Compressor: 275 w
